**Purafil Releases New Upgrades  
MediaPIK™ Version 3.0 Analysis Software**

**DORAVILLE, Ga.**—Purafil, Inc., the leading manufacturer of air filtration systems for the removal of odors and gaseous pollutants, releases Purafil MediaPIK™ version 3.0, Purafil's one-of-a-kind chemical analysis software program designed to guide customers in identifying the type and quantity of Purafil media needed for a specific application. The latest version replaces Purafil MediaPIK™ 2.1 version. Purafil MediaPIK™ version 3.0 offers step-by-step methods and provides comprehensive information about gases present in various applications, estimates media consumption for applications, converts airflows and concentrations and prints a report of the users' session. Purafil's MediaPIK™ version 3.0 expires December 31, 2008.

For over 40 years, Purafil has been the world leader in the designing, engineering, and manufacturing of gas-phase air filtration systems, air monitors, and UL classified media. Purafil maintains nearly 20,000 installations in cleanroom, commercial, industrial, archival, and wastewater treatment settings worldwide.

Purafil's ongoing commitment to quality, customer satisfaction and safety is exemplified by our ISO 9001:2000 certification, numerous industry awards and UL Classified Media.
